

2nd Generation LAA 2008-11 – Draft Indicator Long List

Introduction

This annex sets out a draft indicator long list. This is based on the existing LAA, Southwark 2016 & key partnership strategies along with discussions with the partnership and GOL on local priorities and possible indicators from the national indicator set that could be used to measure our progress against our LAA priority impact areas.

This long list represents an initial view on relevant national indicators that we wish to discuss with government and we will be doing further work on assessing their suitability. We would also emphasise that we are not making any firm commitments to them until we have seen the government's final definitions.

People - Improving Individual Life Chances	
	Children & Young People's Educational Achievement
