

Borough - wide Carbon Reduction Plan: Summary of Objectives

Key	
	Actions included in Local Authority Carbon Reduction Plan
	Actions to be confirmed

NO.	OBJECTIVE	LEAD	Council Division	Council Dept.	Partner	New objective?
1	STRATEGY					
1.1	Strategic Approach					
1.1.1.	To ensure a cross-council system is in place for gathering data relating to sustainable energy.	Energy Team	Sustainable Services	E&H		NEW
1.1.2	For carbon management to become a key strategic objective of the organisation, where carbon reduction opportunities and a financing strategy are identified	LACRP				SSEP
1.2	Resources					
1.2.1	A cross service sustainability group will be in place to monitor progress against Ni186	SSEP Chair	SSEP		Partner	SSEP
1.3	Political / Strategic Support					
1.3.1.	To establish top level commitment to tackling climate change	Sustainable Services and Corporate Policy	Sustainable Services	E&H		NEW
1.3.2	For the climate change impact of all major projects /decisions to be assessed at committee level	Sustainable Services	Sustainable Services	E&H		NEW
1.4	Staff Training and engagement					
1.4.1	To provide energy efficiency training to all staff at induction with a dedicated training module provided for managers	LACRP				NEW
1.4.2	To have in place a staff awareness campaign on sustainability and energy efficiency.	LACRP				NEW
1.5	Staff Transport and Fleet					
1.5.1	To reduce emissions associated with staff transport and fleet	LACRP				
1.6	Procurement					

1.6.1	TBC: To ensure sustainable procurement polices are in place, to include: purchasing of electrical goods, energy standards for new council buildings, use of local items / items manufactured with minimal energy use and environmental impact where possible	Corporate Procurement	Finance	Corporate	SSEP blue skies
1.6.2	To encourage use of fuel efficient vehicles for staff and fleet	LACRP			NEW
1.6.3	To drive higher energy efficiency standards amongst council subcontractors	LACRP			NEW
1.6.4	For council fleet to join Freight Operator Recognition Scheme (FORS)	LACRP			SSEP
2	SERVICES				
2.1	Social Housing - Council's own Stock				
2.1.1	To raise the average SAP of the council's own stock to 70, prioritising the poorest performing housing (SAP <50). As part of this, the council will ensure that all cavities are insulated and all lofts insulated with at least 270mm of insulation.	Housing management and Energy Team	Housing Management	E&H	NEW
2.1.2	Opportunistic energy work is included in repair and void works.	Voids Team	Housing Management	E&H	SSEP
2.1.3	Integrated packages of improvement measures are specified where possible in maintenance programmes. The Major Works 5 year + contract maximises opportunistic improvement in energy and water efficiency	Investment and Asset Management	Housing Management	E&H	SSEP
2.1.4	To ensure advice is available to council tenants on the energy efficiency of their property, how they can save energy and reduce fuel costs in the home, choosing a fuel supplier and tarif, planned improvements to their home, where to go for further information	Energy Team, Area Management	Housing Management, Sustainable Services	E&H	NEW
2.1.5	To tackle fuel poverty amongst own tenants.	Housing options, Energy Team	Housing Management, Sustainable Services	E&H	NEW
2.1.6	Connect SELCHP (South East London Combined Heat and Power) to local community heating schemes to utilise waste heat and displace gas consumption in the social stock	Energy Team	Sustainable Services	E&H	SSEP
2.1.7	TBC: Action on existing district heating & CHP				NEW
2.2	Social Housing - RSL				
2.2.1	To strengthen the council's partnership with RSLs, enabling the council to obtain energy ratings and data for HECA / NI186 returns and give the council a better overall picture of the social housing stock.	Tim Bostridge (Strategy and Regeneration	Strategy and Regen	R&N	SSEP blue skies

2.2.2	To link up on advice and awareness campaigns to tenants and look to set up joint energy efficiency schemes to help achieve minimum standards across all social housing	Roger Tullett, Bob Fiddik					SSEP blue skies
			Energy Team	E&H			
2.2.3	To encourage RSLs to develop a workplan to i) raise the average SAP of housing to 70 ii) prioritise action on poorest performing housing (SAP<50) iii) ensure all cavity walls are insulated and all lofts insulated with at least 270mm insulation iv) integrate opportunistic energy improvements into existing works v) replace appliances and light bulbs with low energy equivalent vi) begin tackling hard to treat homes	Strategy and Regeneration	Strategy and Regen			R&N	SSEP blue skies
2.2.4	RSLs to ensure that adequate energy efficiency advice and signposting is provided for their tenants						SSEP blue skies
		RSLs	RSLs			Partner	
2.2.5	Southwark council to work with RSLs to maintain a proactive programme to secure grant funding to improve sustainability in the social housing sector	SELHAG	SELHAG			Partner	NEW
2.3	Private Sector						
2.3.1	To implement an area based home energy advice and insulation scheme as an effective way of delivering significant carbon reduction in their area.	Energy Team	Sustainable Services			E&H	SSEP
2.4	Hard to treat houses						
2.4.1	Begin to tackle hard to treat housing in public and private sector, including high rise blocks with cavity walls and solid walled houses and blocks.	Housing Management	Housing Management			E&H	NEW
2.5	Energy Advice						
2.5.1	Set up a proactive partnership with income maximisation professionals and health professionals. Establish a referral network so that referrals can be made by their clients to energy agencies.	Legal Advice Network and Energy Team	Legal Advice Network			Partner	NEW
2.5.2	Provide advice on fuel poverty to all social care clients including how to cut heating bills, gain personalised energy advice and obtain grants.	Energy Team (Paul Green)	Sustainable Services				NEW
2.5.3	To set up a fuel poverty referral network, which can put residents in touch with a variety of networks that can assist them with insulation and heating grants, as well as debt counselling and income maximisation.	Legal Advice Network and Energy Team	Legal Advice Network			Partner	NEW
2.6	Resources - Levering in external funding						
2.6.1	Obtain supplier funding under the Community Energy Saving Programme (CESP)	Energy Team	Sustainable Services			E&H	SSEP
2.7	Planning Policy	Who					

2.7.1	TBC Southwark council should use the planning system to encourage improved standards in existing as well as new dwellings	Planning and Transport	Planning and Transport	R&N	tbc
2.6.2	TBC Southwark should ensure that all new members are trained on sustainable energy issues / low carbon energy	Constitutional Services	Constitutional Services		tbc
2.6.3	TBC Integration of district heating into regeneration and new builds projects	IAM, Energy, Strategy and Regen, Planning	Multi	E&H, R&N	tbc
2.8	Education and Schools Energy Management				
2.8.1	Training on sustainable energy to be provided to curriculum advisors, support and guidance on energy management available to school head teachers and caretakers	LACRP			SSEP
2.8.2	Clear energy management strategy and work plan for schools to be in place with a target for reducing carbon emissions in schools through implementing both hard (physical) and soft (behavioural) measures	LACRP			NEW
2.8.3	To drive high standards for new schools in the borough	Children's Services	Education	Children's Services	SSEP
2.8.4	100% of Southwark maintained Schools to be registered as EcoSchools, later becoming Sustainable Schools	Climate Change and Sustainability Team	Sustainable Services	E&H	SSEP
3	COMMUNITY LEADERSHIP				
3.1	Engagement / awareness raising with wider community				
3.1.1	To have a communications strategy in place to lead the community to take action on Climate Change	Communications	Communications	E&H	NEW
3.1.2	To lead the Southwark non-domestic sector to take action on reducing energy use	Climate Change and Sustainability Team	Sustainable Services	E&H	SSEP
3.1.3	To lead residents to take action on climate change.	Communications	Communications	E&H	SSEP
3.1.4	To support community groups in taking action to reduce energy use	Energy Team	Sustainable Services	E&H	NEW
3.1.5	To develop low or zero carbon exemplar projects	Strategy and Regeneration	Strategy and Regeneration		NEW
3.1.6	To generate renewable energy	Energy Team	Sustainable Services	E&H	NEW

3.1.7	To make domestic energy monitors available to residents	Energy Team	Sustainable Services	E&H		NEW
3.1.8	Consult with the Local Community	Energy Team	Sustainable Services	E&H		NEW
3.2	Transport in the Community					
3.2.1	To reduce car dependence across the locality with target to reduce single occupancy car use to 25% and for no traffic growth. To promote modal shift towards lower impact travel.	Planning and Transport	Planning and Transport	R&N		SSEP
3.2.2	To promote efficient driving and low carbon car choice	Planning and Transport	Planning and Transport	R&N		SSEP
3.2.3	To promote personal travel planning to residents	Planning and Transport	Planning and Transport	R&N		SSEP
3.2.4	To use the planning system to curb traffic growth	Planning and Transport	Planning and Transport	R&N		SSEP
3.3	Partner Leadership					
3.3.1	Carbon management Programme introduced at London South Bank University (LSBU) to achieve 15% reduction in CO2 emissions.	LSBU			Partner	SSEP
3.3.2	Promote sustainable building practices at the Centre for Efficient and Renewable Energy in Buildings (CEREB)	LSBU			Partner	SSEP
3.3.3	Promote sustainability and energy efficiency to employees	All SSEP			Partner	SSEP
3.3.4	Reduce freight related emissions	TFL			Partner	SSEP
3.3.5	Reduce emissions associated with partners fleet	All SSEP			Partner	SSEP
